1. Stand a few feet from target on wall. Focus eyes on target.
2. Turn head a small amount to the right and then to the left (or up / down)
3. Move your head as fast as you can, while keeping the target in focus.
4. Continue for ______________ seconds.

Repeat horizontally and vertically, each for __________ repetition.
Repeat __________ times per day.

Note: You might feel an increase in symptoms which is normal. If this lasts > 20 minutes please contact your physical therapist or follow their directions.
